Objective

Looking to obtain an internship for the winter or summer to gain experience and learn more about the field of computer science.

Education

The State University of New York at Buffalo

BS in Computer Science

Honors: Dean's List

Expected: 05/2019

GPA: 3.97/4.0

Technical Experience

The State University of New York at Buffalo | CSE IT Helpdesk (10/2015-Present)

- Resolve technical issues experienced by users in the computer science department.

Shift4 Corporation, Las Vegas, Nevada | Software QA Intern (07/2016-08/2016)

- Worked with a quality assurance team to find bugs in both web and mobile versions of VT4, a secure point of sale system.
- Conducted regression testing on several products.

Engineering Projects

QuickBin - Android App (BigRed Hacks 2016, Cornell University)

- Developed an application where users post locations and pictures of recycling bins and gain points when others use them.
- Collaborated with a partner to develop the application in 36 hours.

UB Printing - Android App (UB Hacking 2015, University at Buffalo)

- Lists the printing stations at UB with the shortest wait time based on the printer queue and distance from user's current location.
- Worked with a small team to develop and present the application in 24 hours.

Technical Skills

Programming Languages - Java, Python, C++, Swift, HTML, CSS, JavaScript, Verilog

Environments - Android Development, iOS Development, Git, JUnit Test Framework

Leadership Roles and Activities

The State University of New York at Buffalo | Teaching Assistant - CSE 199 (08/2016-Present)

- Facilitate the success of over 300 students in seminar course based on the Internet.

Awards and Certifications

- UB Hacking 2015 Winner | ValueCentric - Best Life Enhancing Hack
- CompTIA Network+ Certification
- National Society of Collegiate Scholars
